

TEAM SKILLS

SAVE THE DAY!

A fun and creative way for team members to discover and utilize their individual and combines strengths.

Overview

Team members create super heroes based on character strengths each individual actually possesses. Teams then produce a short stage scene about their heroes in action. The story can be about helping peers, solving community issues or any other topic you want the team to be proactive about. We provide facilitation, handouts, and all the materials (capes, masks, and underwear to wear on the outside of your pants!); your team provides the creativity and passion for saving the day.

Goals

- ✓ Having fun together
- ✓ Appreciating contributions of others
- ✓ Developing leadership attributes
- ✓ Creating unity and common purpose

"The entire retreat was a success because of including Atlanta Challenge on the agenda. By far, the Super Heroes were the favorite. Our facilitator was truly outstanding. Thank you! ~ Fort Valley State Univ.

Agenda & Activities

Welcome & Warm-Ups (5-10 minutes) Our friendly Atlanta Challenge staff welcome your group and give an overview of the event. We then break the ice with some fun warm-up activities that get everyone involved and ready to fully participate.

Thinking Styles Activity (45-60 minutes) In this interactive learning game, participants gain valuable insights into their own strengths on a team, and how to appreciate and utilize other people's strengths. Using this knowledge, participants evaluate how they can be better team players and support their team mates.

Team Up (5-10 minutes) A fun activity that randomly splits the group into smaller project teams.

Hero Challenge (60 minutes) Each team member creates a super hero alter-ego for themselves. The heroes must possess strengths that the team members actually have (such as listening, planning, communication, etc.) Then, using the materials provided to them, teams design outfits for their super heroes, as well as create a short dramatic

skit showing their heroes solving real-world problems.

The Show (10 - 30 minutes) Each team introduces their heroes, explains their super powers and then presents their skit to the group, complete with a hero theme song. The audience rates each team's creation, or at least tries to while they're laughing.

Judging (15 minutes) Teams cast their ballots for "most creative," "best use of materials," "most inspiring," and other fun categories.

Team Tie-In (5-15 minutes) Each group discusses additional challenges that team members can help solve using the strengths of each team member.

Team Review & Wrap-up Activity (15 minutes) The team shares their observations about how they performed, and how to apply those lessons to specific situations faced at school and in life. We end with a fun, but thought provoking, activity and a team picture.

THINKING-STYLES DETAILS

Overview – The Thinking Styles Challenge is a fun, interactive way for teams to work together, gain insights into their own thinking styles and strengths, and better understand how different people can work together for maximum effectiveness.

The Instructional Game - The first step is an interactive card game where participants trade “most descriptive” adjectives on playing cards to better understand the whole-brain theory and how it applies to team interaction. This is a fun introduction to the model, and a way for participants to get to know themselves and their team mates better.

Learning Module - A short walk-through of the Brain Dominance Theory and content is presented to the group. Team members will better understand the 4 major processing areas of the brain and how they effect communication, creativity, brainstorming, problem solving and team success.

Application Phase - The final segment deals with practical applications of the whole brain model and how each individual’s contributions are essential to a successful team. The content is based on the focus of the program (teamwork, goals, change, etc.) and the specific needs of your group. Available topics include:

- ◆ Using Whole Brain Strategic Planning.
- ◆ Understanding the listener’s needs.
- ◆ Maximizing communication.
- ◆ Minimizing misunderstandings.
- ◆ Appreciating all thinking styles.
- ◆ Understanding leadership styles.
- ◆ Improving sales & customer service.
- ◆ Dealing with and managing change.
