Our Approach

Events That Actually Improve Performance
You're not just looking for something fun to fill a calendar slot.
You want something that actually *moves your people forward.*

A lot of team-building and leadership development events miss the mark. They're either:

- All fun, no substance.
- All theory, but puts people to sleep.
- Or worse… forced, awkward, and quickly forgotten.

An Integrated Approach

At Atlanta Challenge, every experience is designed to **balance engagement with real-world impact**. Your team will enjoy the process *and* walk away with something they can immediately use back on the job. We combine hands-on activities with practical frameworks so the experience sticks long after the event ends.

Here's how the experience creates lasting value:

Engagement

Your people will have fun without any awkward or cheesy moments. It's high energy, well designed, and full of moments that make them think.

Skills

Your team practices real leadership and teamwork skills in action, not just theory, so they leave ready to apply it new ideas immediately.

Tools

Your team uses practical tools and worksheets that turn insights into clear agreements and habits they can take back and use right away.

Connection

Your group will interact often, and have conversations that build trust, strengthen relationships, and provide real support.

Your Coach

Hi, I'm Shawn Clark, founder and lead coach at Atlanta Challenge.

From the aftermath of Covid-19 to the dynamics of remote work, inter-generational friction, heightened global competition, and the advancement of AI, the workplace is constantly evolving, leaving many teams feeling overwhelmed and stretched thin. The impact on work quality and well-being is evident, contributing to a rise in turnover, absenteeism, and issues at home.

While working with more than 4,000 teams over 32 years, I've seen firsthand leaders struggling to make meaningful changes—and seen what works and what doesn't. With those insights I created a series of programs with powerful content, activities, and resources that help teams function better and have greater satisfaction.

The impact of these experiences is terrific to watch. Teams become more than just coworkers; they transform into cohesive crews bound by mutual respect and accountability. Communication flourishes, collaboration increases, and productivity reaches new heights. And team members go home feeling energized and fulfilled.

Breaking Limits

Agenda & Activities

Introduction *(5 minutes)* Our staff welcome participants and set expectations for the day's events.

Warm-ups & Energizers *(5-10 minutes)* We lead a few fun activities that break the ice and get the group physically and emotionally involved.

Intro Challenge *(15-30 minutes)* We jump right into the program with a thought provoking team activity that requires ideas and input from the entire group to solve. This gets the group engaged and thinking about what they want to get out of the program.

Personal Focus Appraisal *(30-45 minutes)* People tend to get what they focus on, and in this enlightening activity participants identify what their key areas of focus are, and how to utilize those traits to be more effective at defining and achieving their goals.

Comfort Zone Talk *(10 minutes)* This hands-on demonstration illustrates how easy it is to get caught in the complacency trap, and how we respond when confronted with a new challenge. The point is made that all achievement happens outside our comfort zones and that discomfort is not the problem, but the signpost to success.

Goals & Barriers *(30-60 minutes)* This session begins with a brief discussion on goal-setting: how to state goals specifically and positively, and then to honestly address any barriers (real or perceived) that may be holding us back.

Breakthrough Challenge *(30-60 minutes)* The group learns a step-by-step process for breaking through their boards safely and effectively. After everyone has broken through, the group discusses the applications of the metaphor of board breaking.

Closing & Wrap-up Activity *(5-15 minutes)* The group shares what the event has meant to them, decisions they have made based on their experience, and how they can apply those lessons in their leadership roles. We end with a fun but meaningful closing activity and a group picture.

TEAMWORK QUEST

Agenda & Activities

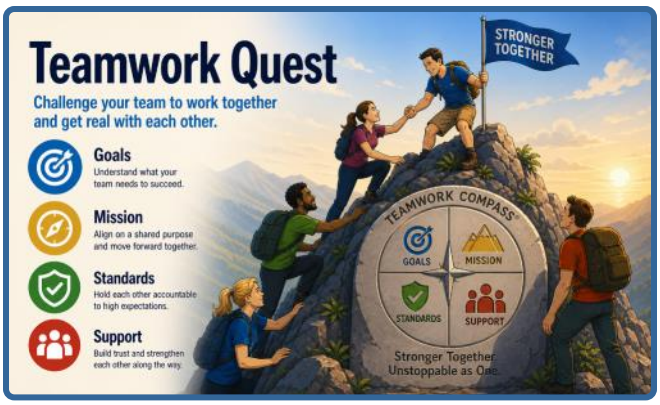
Welcome & Warm-Ups *(10-15 minutes)* Atlanta Challenge staff welcome participants and set expectations and ground rules for the day's events. We then lead fun, high-energy warm-up activities that break the ice, and get people interacting. Participants quickly shift from "meeting mode" into a more engaged, collaborative mindset as the energy in the room begins to build.

The Teamwork Compass® *(15-20 minutes)* We introduce the Teamwork Compass®, a powerful framework that helps teams understand the essential ingredients of successful teamwork and how different people naturally contribute in different ways. Through an interactive discussion, participants begin recognizing both the strengths and blind spots that commonly appear on teams. This model becomes the foundation for the rest of the experience and helps teams connect the activities to real workplace dynamics.

The Quest *(60-120 minutes)* Teams work through a series of hands-on teamwork challenges that require communication, problem-solving, adaptability, planning, creativity, and collaboration under pressure. Throughout the experience, teams naturally uncover patterns in how they communicate, make decisions, handle pressure, and support each other.

Here are a few example activities:

Warp Speed — Teams must transport a series of objects around the group in a precise order with zero mistakes while racing against the clock. As rounds continue, teams discover that working harder is not enough. They must rethink communication, process improvement, role clarity, and efficiency in order to improve performance.



Zoom In — Each participant receives one image from a larger visual sequence, but no one can see anyone else's picture. Teams must communicate clearly, listen carefully, and piece together the "big picture" using only verbal descriptions and collaboration. This activity creates powerful insights around communication gaps, assumptions, and organizational clarity.

The Maze — Using only their memory, observation skills, and support from teammates, participants attempt to navigate an invisible maze hidden within the room. What initially feels like a simple challenge quickly becomes an eye-opening lesson in leadership, trust, emotional reactions, adaptability, and team support under pressure.

Closing Debrief & Wrap-up Activity *(5-15 minutes)* The group comes together to reflect on key insights, celebrate successes, and identify practical ways to apply the lessons back at work. We conclude with a meaningful closing activity, and a team picture to capture the experience.
